MESSAGE FROM THE COORDINATOR

The **Big Bank Theory** offers a unique platform for students of Jai Hind College to acquire comprehensive knowledge and insights into the banking and insurance sectors. It presents an unparalleled opportunity for students to delve into the practical applications of the concepts acquired in their studies, bridging the gap between theoretical knowledge and real-world experience. Our mission is to impart an in-depth understanding of the Banking and Insurance industries, empowering students to apply their skills in practical ways. As a centre for knowledge and development, the **Big Bank Theory** is positioned to become one of the most informative and innovative drives, offering a unique blend of knowledge and creativity that sets it apart.

ABOUT US

Welcome to the Big Bank Theory , an educational event organized by the SYBBI at Jai Hind College. We are a dedicated cohort of students, committed to sharing our knowledge and insights into the realm of finance. Our mission is to enhance the understanding of managing personal finances within the Banking and Insurance spectrum. This drive has been created to simplify complex concepts into clear, practical advices that individuals can incorporate into their financial decisions, whether it is selecting the most appropriate savings plan, understanding insurance policies, or effectively navigating the banking system. We are excited to start this path of learning and growth and extend an invitation to you as we take proactive steps to achieve improved financial literacy. We will be organizing a variety of activities such as financial quizzes and talks with intellectuals.

WHAT IS BIG BANK THEORY?

The "Big Bank Theory" is a captivating and informative event aimed at increasing participants' knowledge of Banking and Insurance. Targeting students, professionals, and the general public, this event seeks to simplify the intricate realm of finance through interactive sessions, workshops, and expert lectures. Participants can gain knowledge on important subjects like financial literacy, banking processes, insurance investments, and the significance of insurance in protecting assets.

The event usually includes panel talks with top figures in the industry, hands-on demonstrations,

and opportunity for participants to learn more about Banking and Insurance offerings through Q&A sessions. Furthermore, the "Big Bank Theory" involves tasks such as quizzes, case studies, and simulations which enhance learning by making it enjoyable and effective. At the conclusion of the event, participants will have improved abilities to make knowledgeable financial choices, comprehend the operations of banks and insurance firms, and value the importance of financial planning in their personal lives.

ABOUT BANKING AND INSURANCE

Banking and Insurance is a specialized undergraduate program that specifically targets the financial services sector, with a focus on banking and insurance. The aim of this three-year program is to provide students with a thorough understanding of banking operations, insurance laws, financial management, and investment tactics.

BBI graduates are equipped for jobs in banking, insurance, financial consulting, and other related fields. The program blends theoretical learning with hands-on experience through internships, case studies, and projects, preparing graduates as versatile professionals to tackle challenges in the financial sector. The degree provides a strong base for future academic pursuits, such as pursuing a master's in finance, MBA, or obtaining professional certifications like CFA, ACCA or CFP to name a few.

GOALS OF THE EVENT

Build Industry Connections:

Facilitate networking opportunities by connecting students with professionals from the Banking and Insurance industries through guest lectures or Q&A sessions.

Address Common Misconceptions:

Clarify any misconceptions students may have about Banking and Insurance careers, highlighting the reality of working in these fields.

Educate Students on Banking and Insurance:

Provide a clear overview of what Banking and Insurance are, including key concepts, services, and the roles they play in the economy.

Explain Career Opportunities:

Outline various career paths in the banking and insurance sectors, including required qualifications, skills, and potential career progression.

Demonstrate Practical Skills:

Teach students essential skills and knowledge related to banking operations, such as account management, loan processes, and insurance policies.

Enhance Financial Literacy:

Equip students with basic financial literacy skills, such as budgeting, saving, and understanding interest rates.
