

Message from the HOD's Desk

It is my pleasure to welcome you to the Department of Financial Markets at our esteemed institution, where we focus on equipping students with comprehensive knowledge and skills in the field of finance. Our department is dedicated to meeting the evolving needs of the financial industry.

Our experienced faculty members are committed to delivering an exceptional academic experience. We offer a wide range of courses that provide a strong foundation in finance, business, and related areas. Our carefully designed curriculum emphasizes critical thinking, analytical skills, problem-solving abilities, and a holistic understanding of the financial industry.

We strongly believe in bridging the gap between theory and practice. To achieve this, we encourage our students to engage in internships, training programs, and industry visits. These opportunities enable students to gain hands-on experience, apply their classroom knowledge to real-world situations, and develop a practical understanding of the financial markets.

In addition to academic excellence, we prioritize holistic development. Our department provides platforms for students to showcase their talents and interests through extracurricular activities, including cultural events, sports, and clubs. We organize the annual financial festival "Entourage" and the speakers' committee "ConCourse," which facilitate networking opportunities with industry professionals and offer valuable insights into the workings of the financial industry.

Promoting financial literacy and awareness is a key initiative of our department. We offer programs like "Baazaar" that enable students to develop their financial literacy skills and stay updated with the ever-changing dynamics of the financial markets.

As the head of the Department of Financial Markets, I extend my best wishes to all our students. Rest assured, we are here to provide you with the best education and support throughout your academic journey. I encourage you to seize the opportunities available to you and emerge as confident and successful individuals in the world of finance.

Message About the Department

The Department of BAF, BBI & BFM, is a department of distinctive character and profile. The academic curriculum and the general nature of our courses are focused and tailored to equip a student with the skills of tomorrow. The department began with the establishment of the BBI course in 2003 and went on to offer BAF and BFM in 2010.

The courses are structurally designed to give students an in-depth, and unique advantage in a specialized set of business / commerce, giving students practical exposure, experience and knowledge. Owing to this specialization they are able to lay the foundation of their careers with a clear mindset and a distinctive path of development. A career in business can be brutal, with cutting edge industry competition and continuous change. We need our students to be able to define their skill sets clearly and have the ability to grow, build on this knowledge and adapt to dynamic environments. This vision is achieved under the pedagogy of our highly qualified growing in-house faculty of **4+ professors**, with **12+ visiting faculty** specializing across industries.

An undergraduate degree is only the first step into one's career; hence it must prepare students to pursue further higher education. Given the accommodative nature of study in our department, students are able to prepare and work towards pursuing higher education at top institutions all over the world. Some of our star students have been accepted into Ivy League Institutions and business schools, behind which formative years of development and learning can be accredited to our department.

Education trains us how to write answers, but students need to learn how to ask the right questions. Hence, our department has an extensive focus on research, via an established student run research club 'Endeavour', which helps students in academic writing and research from their very first year. The department also supports skill development of the students by inviting speakers established within their fields, across the country and internationally through the club 'Concourse'. 'Bazaar' is another jewel run by the students that exposes them to the functioning of financial markets and keeps them updated on all the happenings of the financial world. Lastly, 'In-Tune In-Touch' updates everyone about the intra-departmental activities, opportunities, achievements and also presents refreshing views of the students!

B.Com in Financial Markets -

Program Overview:

The significant expansion of global financial markets in the past two decades has resulted in Financial Markets becoming an emerging field with promising career prospects. Recognizing the untapped potential, Jai Hind College introduced the B.F.M. (Financial Markets) course in 2010.

The B.F.M. course is a comprehensive three-year undergraduate program that is specifically designed to cater to the needs of professionals in financial markets. The program focuses on developing skills in analyzing debt, equity, capital, and commodities markets, with an emphasis on stock trading, equity research, and financial analysis. This well-designed course is ideal for those who aspire to build a career in the growing and ever-evolving field of Financial Markets.

Key Features:

- This is a full time course. The duration of the course shall be six semesters spread over three years.
- It shall consist of 39 modules of 60 marks of Semester End Examination, 40 marks of Continuous Assessment per subject and a 100 marks project.
- B.F.M is is the perfect undergraduate program for students planning to pursue Stock trading, Risk management , Investment banking etc
- Projects, case studies, presentations, moot courts, mock stock and industrial visits ensure a good blend of theory and practical in the course.
- Provides the exposure of working in the industry during the Summer Internship Program which is a compulsory component of the program.
- Additional benefit/option of the program is a chance to pursue higher studies with Colleges/ Universities abroad as part of the various linkages that Jai Hind College has.
- The department also conducts various seminars and workshops by Stock exchanges and Corporate to make the students well-versed in international financial markets.

Career Prospects:

Graduates can pursue careers in the following fields:

Stock Trading

Risk Analyst

Investment banking

Broking

Forensics

Risk management

Mergers and acquisitions etc.

The course is supplemented by innovative internal assessment methods that involve reeling in projects from the practical world, involving research, preparing budget reports, book reviews, and debates. The faculty believes that it is crucial for one to constantly learn and grow in order to gain a competitive advantage in the professional world. Hence, pursuing paradigms like Risk Management, and Technical Analysis have been made essential to the Additional Academic Activity (AAA) credit target that each student is required to meet before graduating.

Internships and Placements

The Department is committed to providing students with opportunities to gain practical experience, develop critical skills, and build professional networks in their respective fields. To achieve this goal, the college offers a range of internship and placement opportunities to its students.

Internships are an integral part of the college's academic programs, and students are encouraged to participate in internships during their studies. These internships provide students with hands-on experience in their field of study and allow them to apply theoretical knowledge to real-world scenarios. The college partners with reputable companies to provide internship opportunities across various industries, including technology, finance, education etc..

The department also has a dedicated placement cell that works closely with students to help them secure job placements after graduation. The placement cell provides career guidance, conducts workshops on resume writing and interview skills, and connects students with potential employers. The cell collaborates with leading companies in various industries to provide job placements to students.

To be eligible for internships and placements, students must meet specific academic requirements and have relevant coursework and experience in their field of study. The college offers career services and resources to assist students in preparing their application materials and interview skills.

The department has a strong track record of successful internship and placement outcomes, with many students securing job placements in leading companies in their respective fields. These opportunities help students to develop a competitive edge in the job market and prepare them for their future careers.

Overall, internships and placements provided by the department offer valuable opportunities for students to gain practical experience, develop critical skills, and build professional networks in their respective fields. The college's commitment to providing these opportunities demonstrates its dedication to ensuring that students are well-prepared for their future careers.

Internship & Placements Opportunities Provided by the Department of BAF,BBI & BFM with

- EY
- KPMG
- Morgan Stanley
- Deloitte
- J.P Morgan

Society/ Cell Under the Department

1) **Entourage**

The annual financial festival, Entourage, organized by the BAF, BBI, and BFM department, is characterized by immense corporate and social enthusiasm throughout the event. Over the years Entourage featured various enjoyable financial events, upskilling sessions, and CSR activities for students. Entourage is the primary festival of the BAF, BBI, and BFM department, focusing on finance while also promoting students' creative abilities and imparting critical life skills like planning, leading, and excelling in a finance career. Additionally, the festival facilitates interaction between students and industry experts and professionals, allowing participants to gain insights into the practical workings of the finance sector and understand the challenges and opportunities they might face in their future careers. Finally, Entourage enables students to hone their interpersonal skills

by engaging in discussions and networking with their peers and professionals. The festival is also an opportunity for students to learn about the latest trends and developments in the finance industry, including emerging technologies and innovations. Overall, Entourage is an excellent opportunity for students to enhance their knowledge, skills, and professional networks in the finance industry. The festival's diverse range of activities, emphasis on creativity and sustainability, and focus on social responsibility make it a valuable and enjoyable experience for all participants.

2) ConCourse

This is a guest lecture series that boasts playing host to several prominent and articulate keynote speakers since its inception. From hosting Wall Street giants to established Chartered Accountants. A plethora of topics such as Culture of Entrepreneurship, Communication & Personal Growth, Musings In finance, Fundamentals of Motorsport, ethical hacking, Corporate Crisis management, mental health and many more had been handpicked. Knowledge on these topics were proven to be beneficial for anyone aspiring to thrive in any field in today's dynamic world. ConCourse is the speakers' committee that aims to enhance students' understanding of particular job roles through experienced professionals in their respective fields. The committee collaborates with various industry experts to organize interactive sessions that enable students to network and gain insights into their desired careers and fields. The committee plays a crucial role in bridging the gap between academia and industry by providing students with practical knowledge and skills

that can help them succeed in their future careers. ConCourse also offers students the opportunity to ask questions and seek advice from professionals, allowing them to gain valuable insights and guidance on their career paths. Overall, ConCourse is a valuable resource for students interested in gaining a better understanding of different job profiles and industries. The committee's diverse range of events, focus on networking and engagement, and commitment to providing practical knowledge and skills make it an essential component of the BAF, BBI, and BFM curriculum.

Read more on the sessions [here](#).

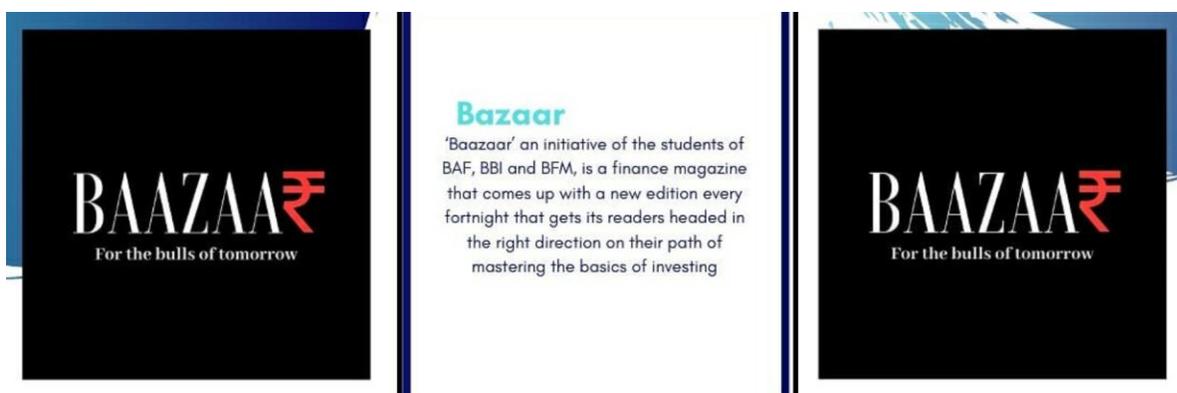

3) Endeavour

Endeavour is a holistic editorial club of the department that endorses the art of reading and research, as well as debating and peer-relations.

- Blog: The committee was developed in order to help the students develop a culture of being well aware and informed. The website <https://endeavour.home.blog> is a platform for students to wield their pens and channelize their inner creative/academic genius into articles and texts that contextualize with their interests and the occurring's of the world. Topics range from cultural dynamics or events, to a breakdown of the current status of the domestic economy, to personal essays and industry analysis.

- **Research Club:** wherein students are taught the basics of research, and how one can leverage this skill in their careers. Students learn and understand formulating hypotheses. They also develop critical and analytical abilities.
- **Debate Club:** the debate club equips students in the art of debating and lays emphasis on development of soft skills. Endeavour organises debate competitions for the students.
- **Alumni Series:** the Alumni Series leads the mission of peer-networking and learning by handling alumni relations. This sub-department allows for the students to learn from the journey of the alumni of the college, and seek motivation.

4) **Baazaar:**

Fortnightly financial magazine, to simplify core financial news, and concepts to the catering of a students' language, helping them to stay updated and aware. Baazaar₹ is Jai Hind College's only financial magazine. The aim of Baazaar₹ is to spread financial awareness among all the students of Jai Hind College. Baazaar is the Financial Nexus of the BAF, BFM, and BBI departments of Jai Hind College launched in 2019, is an endeavor that seeks to spread awareness about business news and financial literacy. The magazine is published monthly and contains articles on investment, which are accompanied by detailed analysis, charts, and other information that readers may need to make informed decisions. In addition, baazaar publishes a variety of weekly posts on topics ranging from finance to economic crises. Furthermore, Baazaar is the ideal place to obtain all kinds of business and economic news. Overall, The Financial Nexus and Baazaar serve as valuable resources for students interested in finance and business. Through their informative content, events, and collaborations, they help students develop their skills and knowledge, while also promoting financial literacy and awareness in the wider community.

IN TUNE & IN TOUCH

In Tune In Touch is a monthly Newsletter exclusively brought to you by the Jai Hind College (Autonomous),
Department of BAF , BBI & BFM , Mumbai

5) In-Tune In-Touch

In-Tune In-Touch is the department's newsletter equivalent to the news daily of a bubbling locality. It keeps one updated on all departmental activities. From club activities to Teacher's Tale and a Safe Space for students' mental health. It also gives the required motivation and a roadmap that one may require to know about departmental happenings. To add, it also highlights the achievements of the students. In-Tune In-Touch is created by the students of the department and is published on a regular basis, keeping students and faculty members updated on the latest happenings within the department. The newsletter covers a wide range of topics related to the department, including academic updates, upcoming events, and initiatives undertaken by the students. In-Tune In-Touch also features interviews with faculty members, highlighting their research interests and academic achievements. Overall, In-Tune In-Touch is an important communication tool for the department, keeping students and faculty members informed and engaged. Through its wide range of content and contributions from students, it provides a platform for creativity and expression, while also promoting a sense of community within the department.

ACADEMIC SYNERGIES

The college places a strong emphasis on healthy practices that promote the overall development and well-being of its students. Here are some of the initiatives undertaken in this regard:

(a) Induction: At the start of every academic year, freshmen students receive a comprehensive induction to acquaint them with the nature, curriculum, and expected outcomes of the program at Jai Hind College. The objective of this induction is to establish expectations, listen to students' expectations, and foster a meaningful dialogue between the faculty and students. This enables students to gain a clear understanding of the program and its requirements right from the outset.

(b) Parent-Teacher Interaction: During the second semester, There is a Parents-Teachers Meeting conducted for the First-Year and Second-Year students. This event offers parents an opportunity to review their child's performance in the previous semester and engage in discussions with the faculty. It fosters effective communication and engagement among parents, teachers, and students, ensuring that parents are kept informed about their child's progress.

(c) Guidance and Support: The department offers mentoring assistance to students in diverse areas, including career guidance, business planning, and competitive exam preparation. Mentors provide personalized guidance, counseling, and support to ensure students' academic success and personal development. Additionally, remedial teaching practices are implemented to provide extra support to students in understanding core concepts, ensuring their comprehensive understanding of the subjects.

(d) Graduation Ceremony: The department honors and recognizes students who successfully complete their programs in the presence of a distinguished alumnus. This event celebrates the accomplishments and growth of students, marking their transition from young and enthusiastic learners to skilled professionals. It instills a sense of achievement and pride in the graduating students.

Overall, these healthy practices implemented by the college aim to ensure the holistic development of students, providing them with a supportive environment, guidance, and opportunities for growth and success in various aspects of their lives.

Students Achievements

- Rashi Surana (TYBFM) stood 1st at the state level badminton championship.
- Dhaval Vaishnav (TYBFM) won medals for dramatics, dance and cricket.
- Siddharth Parekh (SYBFM) podium in the State Level Hockey Championship.

- SUMITOMO SCHOLARSHIP received by :
 - a. Rishikesh Desai(BFM)
 - b. Kamiya Arya(BFM)
 - c. Esha Saini (BFM)
 - d. Alifiya Maksiwala (BFM)
 - e. Prithvi Srinivasan (BFM)
 - f. Nikhilendra Mithanthaya (BFM)
 - g. Abdulqadir Tankiwala (BFM)

Each of these students received rupees 30,000 each.

Other Activities

The department offers various opportunities for students to gain practical exposure and enhance their knowledge through visits, activities, and certifications. Some of these include:

Industrial Visits: The department organizes visits to industrial hubs such as Nasik, Bangalore, Mysore, Ooty, and other relevant places. These visits provide students with real-world insights into industrial operations, production processes, and business practices. It allows them to connect theoretical concepts with practical applications and understand the functioning of different industries.

Moot Courts: The department conducts moot court sessions, which simulate real-courtroom scenarios. This gives students the opportunity to develop their legal skills, such as drafting pleadings, presenting arguments, and engaging in legal research. It helps them to hone their advocacy skills and gain practical experience in a simulated legal environment.

APMC Visits: Visits to Agricultural Produce Market Committee (APMC) can provide students with an understanding of the functioning of agricultural markets, including procurement, pricing, and distribution of agricultural commodities. This allows students to gain insights into the agricultural supply chain and understand the challenges and opportunities in the agriculture sector.

Court Visits: Court visits can provide students with an opportunity to observe legal proceedings in a real courtroom setting. This helps them to understand the legal system, court procedures, and the role of various stakeholders in the justice delivery process.

MCX and BSE Visits: Visits to Multi Commodity Exchange (MCX) and Bombay Stock Exchange (BSE) can provide students with insights into the functioning of commodity and stock

markets, respectively. It allows them to understand market operations, trading mechanisms, and risk management practices.

Book Reviews: Book reviews may be conducted where students are encouraged to read and review books related to their subject of study. This helps them to develop critical thinking, analytical skills, and gain knowledge from diverse sources.

NGO Work: Students may engage in volunteering activities with non-governmental organizations (NGOs) to gain practical experience in social work, community development, and understanding social issues. This provides students with an opportunity to make a positive impact on society and develop a sense of social responsibility. Minimum 40 hours is required

Budget Presentation: Budget presentation exercises can help students to understand the process of preparing budgets, analyzing financial statements, and making financial decisions. This allows them to develop financial management skills and learn how to prepare and present budgets in a professional manner.

JAM Sessions: Just-a-Minute (JAM) sessions can be conducted to improve students' communication skills, public speaking abilities, and critical thinking. These sessions typically involve impromptu speaking on a given topic for a minute, which helps students to think on their feet, articulate their thoughts clearly, and improve their overall communication skills.

Certifications: The department may provide assistance and support to students in obtaining professional certifications such as NISM (National Institute of Securities Markets), JAIIB (Junior Associate of Indian Institute of Bankers), III (Insurance Institute of India), CFA (Chartered Financial Analyst), ACCA (Association of Chartered Certified Accountants), and CTA (Chartered Tax Advisor). These certifications can enhance students' knowledge and skills, and improve their employability prospects in relevant industries.

Overall, these visits, activities, and certifications provide students with practical exposure, hands-on experience, and professional development opportunities, complementing their academic curriculum and preparing them for the real-world challenges in their respective fields of study.

EY Scholarship Programme: The EY Scholarship program is open to undergraduate students from colleges across India. It involves the submission of a business case focused on the theme allotted. The business case can be for a 'for-profit' or 'not-for-profit' organization to help create a Better Working World. The business case idea should showcase innovation, clarity of thought, passion to win, and potential impact.

The program offers attractive rewards to the winners, including a cash prize of INR 1 lakh, a two-month internship with EY in a service line of their choice, and an opportunity to earn industry-

recognized digital credentials for future-focused skills. Detailed guidance on how to structure and present the business case idea can be found in the instructions provided by the program.

The business case idea should cover the following:

- Innovation
- Clarity of thought
- Passion to win
- Impact on the working world

Research Papers & Publications: The college encourages students to engage in research and scholarly activities under the guidance of their Head of Department (HOD) and professors. Since 2020, students have published more than 15 research papers in reputed National and International Journals, which are certified by the University Grants Commission (UGC). These research papers cover a wide range of fields, including education, social investment, green finance, mental health, and other relevant areas.

The process of research and publication involves rigorous investigation, analysis, and documentation of a specific topic or issue. Students, guided by their HOD and professors, undertake in-depth research, review existing literature, collect data, and analyze findings to draw meaningful conclusions. They follow the research methodology and academic standards to ensure the quality and validity of their research work.

Publishing research papers in National and International Journals with UGC certifications is a significant accomplishment for students. It provides them with a platform to contribute to the existing body of knowledge in their respective fields and showcase their research skills and academic abilities to a wider audience.

Research papers and publications serve multiple purposes. They enhance students' understanding of their chosen field, promote critical thinking and analytical skills, and foster a culture of research and innovation. They also contribute to the academic reputation of the college and its faculty, as well as establish the college as a hub for research and scholarly activities.

Furthermore, research papers and publications can have a practical impact on the society and industries. They can inform policy-making, shape decision-making in organizations, and provide insights for addressing social, economic, and environmental challenges. They also provide opportunities for students to network with scholars, professionals, and experts in their fields, which can open doors for further research collaborations, internships, and career opportunities.

Overall, the publication of research papers in National and International Journals with UGC certifications demonstrates the college's commitment to promoting research culture, fostering

academic excellence, and preparing students for meaningful contributions to their chosen fields of study.

STARTUPS BY STUDENTS

Adorn:

FOUNDER - AYESHA PARDIWALA(FYBFM)

We make affordable accessories for daily wear. About 80% of products are handmade by us and almost everything is customisable as per your liking. We also have Taylor swift, Harry styles and Black pink themed accessories along with our unisex collection!
